Conductor's AV Entitlement

January 31, 2010

Brothers & Sisters:

Due to the Company having difficulty with providing and calculating the proper Conductor's AV entitlement this year, the AV Committee has had to await their figures before proceeding with the bids. Apparently, there are still some errors as to entitlement for some employees, with the majority being those that had broken service last year (laid off, sick, etc.). Please call myself if there is a discrepancy and I will deal with the Company in getting it addressed.

Thank you,

Brett Weisgerber
